

Customer Song Showcase Permission Agreement

Optional consent for examples of customer work. Complete all approval fields before signing.

Creator: Athena Marie (legal name: _____)

Customer legal name: _____

Customer email: _____

Song title / request reference: _____

Exact approved file/version or link: _____

1. Optional permission; your order stays private by default

The customer may approve or decline showcasing without changing the agreed price, service, or delivery. Selecting “you may ask” on an intake form is not consent. No sharing is authorized until both parties sign this agreement and identify the approved material and locations below.

2. Approved work examples only

The customer gives Athena a nonexclusive permission, limited to rights the customer can grant, to display the approved song as an example of work created for a customer. Athena may promote her custom-song service through these examples, but may not sell, license, distribute for revenue, or intentionally monetize this customer song under this agreement. Paid advertising is excluded. Hosting-platform processing is permitted only as necessary for an approved showcase.

Approved material (select): ☐ Full song ☐ Excerpt only

If excerpt: timestamps / maximum length: _____

Approved locations/accounts (list exact website and social accounts):

Approved public credit: ☐ No name ☐ This name: _____

Details to remove or avoid: _____

Customer approval of final public version/date: _____

3. Privacy, editing, and other people

Only the approved version and credit may be published. Private intake details, photos, messages, or the full personal story are excluded unless specifically listed and approved. Trimming, captioning, and formatting must not change the meaning. Athena must obtain necessary consent for other identifiable people or remove their identifying details. The customer is not agreeing on behalf of others without authority.

4. Duration and withdrawal

Permission begins when both parties sign and final approval is recorded, and continues until withdrawn in writing. The customer may withdraw by replying to Athena’s project email. Athena will stop new showcase use and remove controlled posts within 14 calendar days. Third-party reposts and caches cannot be guaranteed removed. Withdrawal does not alter completed service or authorize monetization.

5. Rights and revenue

This agreement does not transfer copyright, grant exclusivity, change the customer’s purchase license, or guarantee copyright protection for AI-generated elements. Any money-generating use requires the separate addendum on page 2, completed and signed before release. A blank percentage grants no monetization permission. Both parties receive a copy of the signed agreement.

Customer signature: _____ Date: _____

Athena signature: _____ Date: _____

Optional Monetization & Revenue-Share Addendum

Separate opt-in. Do not sign this page for portfolio-only permission. All material terms must be completed and signed before any revenue-producing use.

Song / request reference: _____

Customer legal name: _____

Creator legal name: _____

1. Exactly what is approved

Approved revenue-producing use (e.g., streaming release, sale, paid license): _____

Approved platforms / distributor / accounts: _____

Territory: _____ Start date: _____

End date or defined duration: _____

Approved song version and public credit: _____

Approved edits and uses of identifying details: _____

Only the listed uses are permitted. New platforms, paid advertisements, new licenses, remixes, sublicensing, or broader uses require a further written agreement unless specifically included above. Rights held by others and any distributor or production-platform requirements must be cleared before release. Portfolio approval alone does not authorize this addendum.

2. Customer percentage and accounting basis

Customer receives: _____ % of Attributable Receipts (must be greater than 0 and no more than 100). Athena retains the remainder, subject to other separately cleared obligations. This share is a contractual payment, not a declaration of copyright ownership.

Attributable Receipts means money actually received by Athena from the approved exploitation of this song, less only refunds/chargebacks, sales taxes collected and remitted, and platform, distributor, or payment-processing fees directly charged on that income. No deductions for Athena's labor, software, production, advertising, overhead, or other expenses are permitted unless separately agreed in a signed amendment. The original commission fee and income from unrelated orders are excluded. No revenue is guaranteed.

For bundled licenses or channel-wide revenue, agree on the allocation before use:

If song-attributable income cannot be tracked or allocated by the agreed method, that use is not authorized. Money earned directly from a showcase placement also requires this addendum; attracting future commissions is not song revenue.

3. Statements, payments, and records

Within 30 days after each calendar quarter, Athena provides a statement of receipts, allowed deductions, and the customer's share, and pays that share with no minimum threshold. Payment method/contact: _____. Athena retains supporting records for at least three years. The customer may request relevant statements or records once per year with 30 days' notice; unrelated private information may be redacted.

4. Ending permission; outstanding income

Either party may stop future monetized use by written notice. Athena will stop new releases/licenses and request removal from controlled platforms within 30 days; platform processing may take longer. Existing third-party licenses may continue only if their survival is explicitly agreed here: _____. Accrued shares and later receipts from authorized surviving uses remain payable under this addendum. No ownership transfer or AI-output exclusivity is implied.
